

A Simple L^AT_EX Template

Kritsada Nhanjeing

June 27, 2026

1 Introduction

Welcome to this simple L^AT_EX document template. It is configured with clean geometry margins, standard article layout, and essential packages for scientific text and mathematical formulas.

2 Mathematics Example

You can include inline mathematical expressions like $E = mc^2$ or standalone, centered equations using the `equation` environment:

$$f(x) = \int_0^\infty e^{-x^2} dx \tag{1}$$

3 Features Included

- Standard A4 layout with 1-inch margins.
- Native math support via `amsmath`.
- Document structure with automated title, sections, and lists.
